DOWN & DIRTY with PASTELS

We warm up with contour drawing from life, and move on to drawing basics sometimes using all sorts of tools and techniques to create drawings on which we base our pastel paintings. Kids learn all the basics of composition and proportion, colors and values, drawing what they see, and creating good paintings. We may even make some pastel sticks! All materials included.

ADVANCED ART SALON

This class is for more experienced, self-directed, mature artists who want to expand their repertoire, explore methods of expression, develop new skills, and create works for their portfolios.

ART SMORGASBORD

Summer vacation art exploration. An eclectic array of artistic experiences for kids 5 and up. Depending on the weather, we may draw and paint outside. Classes include contour drawing, basic drawing skills, faces and figures, proportion and perspective; composition, color and values; pastel painting, acrylic painting, still life work with modeling clay, play-doh, and pastel...Last year we even did a week of paper maché mask-making! All materials included.
